

## **NATIONAL REHABILITATION HOSPITAL CHOOSES INTELLIGO SOFTWARE AS PREFERRED PAYROLL SOFTWARE SUPPLIER**

**21st June, 2007:** Intelligo Software, one of the leading Human Resource and Payroll providers in Ireland and the UK, today announced that the National Rehabilitation Hospital has selected Intelligo Software's corporate payroll solution, Megapay, to manage its payroll function.

The National Rehabilitation Hospital is the national centre for the treatment of spinal and brain injury rehabilitation in Ireland and currently has over 500 employees based in Dun Laoghaire.

Brendan Martin, Payroll Manager, chose Megapay from Intelligo Software because "of its track record in the payroll business and the health sector in Ireland. Having used a DOS based application for 20 years, it was important to us that installation and training of a new system went as smoothly as possible, the attention to detail and knowledge of our specific requirements by Intelligo's staff during the installation and on-going support was incredible, it gave the payroll department the confidence they needed going forward", said Brendan.

"Megapay offers us extreme flexibility, it has given us far more control over the payroll process and information is now much better for both employee and employer, to sum it all up *"payroll access at your fingertips"*.

When asked if Megapay had a positive impact on the hospital, he responded, "Megapay has increased the efficiency and the time of the payroll department by linking to external applications such as ROS, Agresso, etc. The best feature in our opinion is the easy access to Excel through the system. It has taken away a lot of the mundane keying of information and freed up the payroll staff for more strategic tasks".

## **About Intelligo Software**

[www.intelligo.ie](http://www.intelligo.ie)

Established in 1996, Intelligo Software is one of the leading providers of Human Resource and Payroll Software in Ireland and the UK. The company offers both boxed HR and Payroll Software, aimed at small to medium sized enterprises and a larger client server payroll system aimed at large corporate organizations "Megapay".

Intelligo Software's vast array of services which complement the range of Payroll and HR solutions is designed to take away the headache associated with HR and Payroll, leaving organizations with more time to focus on their core business. With offices in Ireland, the UK and Spain, Intelligo Software offers its customers a wide range of services which include installation, training and support.

## **About The National Rehabilitation Hospital**

[www.nrh.ie](http://www.nrh.ie)

The National Rehabilitation Hospital espouses the values established by the Sisters of Mercy to provide high quality care and treatment to patients irrespective of background or status, but on the basis of need. The hospital, in partnership with the patients and families, endeavors to achieve health and social gain through the effective treatment and education of patients who, following illness or injury, require dedicated interdisciplinary rehabilitation services.

The hospital aims to achieve this in a manner that is equitable and transparent in its service delivery, sensitive and responsiveness to those availing of its services, and supportive of the staff entrusted with its delivery.

-End-
