

PERIGORD GROUP CHOOSES INTELLIGO SOFTWARE AS PREFERRED HUMAN RESOURCE SOFTWARE SUPPLIER

9th February, 2009: Intelligo Software, one of the leading Human Resource and Payroll providers in Ireland and the UK, today announced that The Perigord Group has selected Intelligo Software's Human Resource software, VIP HR Manager, to manage its HR function.

The Perigord Group is an artwork and print solutions group of companies with offices in Ireland, the US and Singapore. It currently employs over 60 staff at its Dublin offices.

Finding a Human Resource solution that would offer bespoke development, flexibility, ad-hoc reporting and ease of use were just some of the critical factors for Perigord in choosing a HR system. Michael Fleming, General Manager, chose VIP HR Manager as the best HR system for the company based on a study of all HR providers taking into account the above criteria.

Essentially Michael wanted a HR system that would work for their business which is made up of a number of different companies, operating out of the same building, sharing the administration burden. "We have used the reporting feature to design reports on training needed and completed for tracking and grant application purposes."

"We particularly liked the 'Quick Absence' feature which enables our line managers to input absence records without having access to the full system. This feature allows line managers to maintain accurate records and reduces the need for a central HR administrator to keep track of such data as they don't always see employees on a daily basis," he added.

When Michael was asked how VIP HR Manager has addressed their business needs, he responded, "The software is user friendly, intuitive and easy to follow. It was great to give the business to an Irish company and the service we have received from both sales and the help desk has been excellent.

About Intelligo Software Ltd

Intelligo Software Ltd was established in 1996 following a management buyout of the Human Resource software and corporate Payroll software sections of Computer Resources Ltd. The company was established by Pdraig Gill (Sales and Marketing Director) and John Kellegher (Technical Director), both have considerable experience in both HR software and payroll products.

During this time, Intelligo Software Ltd has grown to become one of the leading suppliers of Human Resources and corporate Payroll in Ireland. The company offers both "boxed" HR and Payroll software aimed at small to medium size enterprises and a larger client server payroll and HR systems aimed at large corporate organisations within Ireland.
